**There is hardly a community in Kentucky that could rival all Trigg County has to offer and yet one of the #1 concerns of the citizens is there is not enough to do.**

**CHALLENGE #1:**

Try to find all of the offerings on [gocadiz.com](http://gocadiz.com) and other Cadiz-Trigg County websites. GoCadiz.com is Cadiz-Trigg County's primary marketing tool with all advertising directing one to the website to find out more. The website needs to be addressed. See *APPENDIX E* for more on website presence.

**CHALLENGE #2:**

And if one drives through the county, they would be hard pressed to discover even a fraction of the county's many treasures listed on the previous pages. See *APPENDIX B* for developing a sign plan to assist visitors in finding attractions and offerings throughout the county.
